How to read this book  
Introduction

## **PART I – From Bretton Woods to the Dollars-for-Oil Era: The Petrodollar System is Dead**

1. Introduction
2. Bretton Woods and the dollars-for-gold era
3. Dollars “as safe as gold”
4. The chickens come home to roost
5. The winner takes it all: consolidating the dollar’s reserve status and replacing gold with American debt as the global reserve “asset”
6. The dollars-for-oil era: the birth of the Petrodollar
7. The mechanics of the Petrodollar: the “great recycling,” the Eurodollar market, and the IMF predatory loans
8. What is the Eurodollar?
9. The third pillar of the Petrodollar system: the Washington Consensus
10. Enforcing the Petrodollar and the New American Century doctrine
11. The beginning of the “Forever Wars”: Saddam moves to the Euro
12. A renewed threat to the dollar and the colonial French franc: Gaddafi must go
13. Central Asia’s New Great Game
14. The business of war: the MIC, the fourth pillar of dollar hegemony
15. Conclusion

## **PART II – De-dollarization, CBDCs, and Multipolar Trading Blocs are Systemic Threats to the Reserve Status of US Treasuries**

16. Introduction
17. GDP, PPP, real manufacturing data, or stocks of resources: where lies economic power today?
18. The real de-dollarization: escape from U.S. Treasuries
19. China’s dollar-denominated bonds: a strategic move and the last nail in the coffin of the Petrodollar system
20. Conclusion

## **PART III – The Bitcoindollar System is Born**

21. Introduction
22. A Plan B for the digital age: the Bitcoindollar
23. How the Bitcoindollar will affect the Treasury’s borrowing strategy
24. The case for Bitcoin-backed Treasury Bonds
25. The disconnect between financialization and the real economy
26. Why Bitcoin and not gold or another cryptocurrency?

- 27. The four pillars of continued dollar hegemony in the digital era
- 28. The new “Washington Consensus” and its money masters
- 29. The tokenization of everything
- 30. Geopolitical and sovereignty risks of stablecoins
- 31. The fourth pillar: peace, cooperation, and defense
- 32. Why the Gold Standard could not restrain wars and why the Bitcoindollar can
- 33. Conclusion: the need for a new Bitcoin-based economic paradigm

## **PART IV – How the Bitcoin Revolution Impacts Key Sectors**

- 34. Bitcoin emerging as the perfect collateral and its impact on banking, lending, consumer credit, and real estate
- 35. MicroStrategy’s speculative attack on the dollar and its corporate treasury strategy
- 36. Understanding MicroStrategy’s Bitcoin play
- 37. The power of volatility: MicroStrategy taps the ATM
- 38. Bitcoin restrains central bankers’ capability to run primary deficits permanently
- 39. Bitcoin scales by power law
- 40. A U.S. Strategic Bitcoin Reserve
- 41. The visionary Head of State: El Salvador’s President Bukele

## **PART V – Empires, Cycles, and Bitcoin: Charting the Next Monetary Era**

- 42. Navigating the Big Cycle: Bitcoin’s role in reshaping the monetary order
- 43. Conclusion: the Bitcoindollar system is a global paradigm shift
